

# CARLISLE CROSSING

NEIGHBORHOOD NEWSLETTER

We're excited spring finally seems to be arriving in Carlisle Crossing! Here are a few updates, news and reminders as we head into the warmer months. We look forward to seeing you around the neighborhood!

## NEIGHBORHOOD GARAGE SALE

This year's garage sale is on May 14. You are responsible for obtaining your \$3 garage sale permit from the City Clerk Treasurer. The Board will put a notice in

the TAB. The Salvation Army will pick up any unsold, unwanted items between 3 PM and 4 PM on Sat., May 14. If you would like the truck to come to your house, please send an email to [carlislecrossinghuntington@gmail.com](mailto:carlislecrossinghuntington@gmail.com) or send a Facebook message to the Carlisle Crossing page. The drivers will stop at houses looking for items at the end of the driveway. They will also have a receipt book if you'd like to get a receipt from them.

## PET RESTRAINT

You are responsible for your pet(s) even if they are within an electric fence as these are not a guaranteed method of restraint. If you have a problem with neighborhood dogs or pets while walking/biking on public spaces, contact Animal Control. The Huntington County Animal Control Officer is dispatched through the Huntington County Sheriff's Office. Please call the non-emergency dispatch number at: (260) 356-8316.

According to city ordinances, all animals must be properly restrained. An animal shall be considered properly restrained if kept: indoors, confined within a safe and adequate structure, or tethered. Also, the owner or agent of an animal shall immediately remove the animal's excrement from public or private property, (excepting a handicapped person working with a guide dog.)

## SUMMER BUILDING PROJECTS

Don't forget to obtain the appropriate building permits from the city and contact the Architectural Control Committee when you have building and other improvement projects. To access the request form, visit [www.carlislecrossinghuntington.com](http://www.carlislecrossinghuntington.com) under the "Info" tab.

## NEIGHBORHOOD SAFETY

With the return of warm weather the neighborhood is busy again with more sidewalk traffic. Keeping your lamp post lit from dusk to dawn as required by the covenants is for the safety of everyone. Also, please make sure all vehicles and other obstructions are clear from public sidewalks as per city ordinances. Please be courteous and don't park across from another parked car in the street as this is causing traffic flow bottlenecks. Thank you for your help in making this a safe community!

## SECTION 5

23 new homes are coming to Carlisle Crossing. Stay tuned for more news regarding Section 5.
